DBIA Florida Region is now accepting submissions of abstracts for our 2019 Design-Build Conference. With the huge success of previous conferences, we are looking for innovative and motivating session proposals featuring seasoned and experienced presenters and/or panelists.

While all submissions will be given equal consideration, DBIA-FL finds most desirable sessions with the following characteristics:

- Sessions that go beyond the surface and which address particular issues/challenges; provide employable solutions, and provide attendees with take-home tools
- The inclusion of experienced, credible presenters who can represent the perspectives of various members of the team (e.g., owner, architect/engineer, general and specialty contractors, manufacturers/suppliers, etc.)
- Panel discussions and/or case studies from the owner's perspective
- Sessions that incorporate DBIA Best Practices and Lessons Learned
- Presentations will be entertained for all design-build knowledge levels and market sectors. All presentations should relate to design-build in some way
